

Dear Hiring Manager,

I would like to apply for the BIM Coordinator position.

With over 10 years of experience in Singapore's construction industry, I have developed strong expertise in BIM coordination, modelling, shop drawings, and multidisciplinary project delivery. Throughout my career, I have worked across Architectural, Structural, and MEP disciplines, allowing me to understand and coordinate construction requirements from multiple perspectives.

Currently, I am working at Woh Hup as an M&E BIM Lead, where I coordinate BIM models across Architectural, Structural, and MEP disciplines for large-scale residential developments, including condominium and landed housing projects. My responsibilities include BIM coordination, clash detection using Navisworks, shop drawing production, model QA/QC, consultant coordination, RFI management, and resolving design discrepancies to support project delivery.

Prior to this, I was involved in the META Data Centre project, where I coordinated Temporary Power Systems and Lightning Protection Systems, supporting BIM coordination and construction delivery in a fast-paced mission-critical environment. I have also worked on healthcare, infrastructure, and transportation-related projects, including a Design & Build Medical Centre at Kranji Camp III, Mandai Bird Paradise, Tengah Depot, and various residential developments.

In addition to BIM coordination, I have contributed to 4D construction animation, swept path analysis, VR visualization using Enscape, and 3D printed scale models for project presentations. I am proficient in Revit, AutoCAD, Navisworks, and BIM workflows, and I am comfortable working independently while collaborating closely with consultants, contractors, and project teams.

Thank you for your time and consideration. I look forward to the opportunity to discuss my application further.

Yours sincerely,

Zwe Htet Aung

ZWE HTET AUNG

BIM Coordinator | Multi-Disciplinary BIM Specialist

PROFILE SUMMARY

Experienced BIM Coordinator with over 10 years in construction, specializing in BIM modelling, coordination, and multi-disciplinary integration across architectural, structural, and MEP projects.

Proven ability to manage BIM workflows, perform clash detection, and coordinate with consultants, contractors, and design teams to ensure accurate and efficient project delivery. Strong background in both BIM and site engineering, enabling practical and buildable solutions.

PROFESSIONAL EXPERIENCE

Senior BIM Designer

Woh Hup

Dec 2023 – Present

- Lead BIM coordination across **Architectural, Structural, and MEP disciplines**
 - Ensure BIM models comply with project standards and submission requirements
 - Coordinate with consultants, subcontractors, and internal teams
 - Manage BIM deliverables and model updates
 - Experienced in handling both **technical BIM coordination and practical site requirements**, ensuring models are accurate and buildable.
 - Able to quickly adapt to different project environments and deliver results under tight deadlines.
 - Strong understanding of construction workflow from design stage to project completion and handover.
 - Committed to continuous learning, currently exploring **automation and digital solutions to improve BIM workflows**.
-

BIM Coordinator

Puretech Engineering

Jun 2023 – Dec 2023

Projects: Mandai Bird Park, Tengah Depot (LTA)

- Managed BIM coordination for large-scale infrastructure projects
 - Participated in **CCSM meetings with live model updates**
 - Performed clash detection and resolved coordination issues
 - Liaised with consultants and main contractor
 - Trained junior BIM modellers
-

Project Engineer / BIM Modeler

Wah Loon Engineering

Sep 2020 – Nov 2022

Project: META Data Center

- Developed BIM models and supported coordination
 - Conducted clash detection and coordination meetings
 - Coordinated with design teams and site teams
 - Prepared technical drawings and documentation
-

Electrical Project Engineer / BIM Modeler

Wesmech Engineering

May 2019 – Aug 2020

Project: Kranji Camp III Medical Centre (Design & Build)

- Implemented BIM (Revit) for project coordination
 - Prepared BIM models, drawings, and submissions
 - Managed coordination with consultants and contractors
 - Performed design tasks (SLD, load calculations, LPS)
-

Senior M&E Drafter

Cleantec Engineering

Oct 2015 – May 2019

- Prepared detailed drawings and fabrication drawings
 - Supported M&E coordination
 - Performed basic design calculations
-

Early Career (Myanmar)

- Telecom Technician
- Medical Equipment Sales Engineer

EDUCATION

Bachelor of Engineering (Electronic & Communication)

Technological University Thanlyin

Specialist Diploma in M&E Coordination

BCA Academy

TECHNICAL SKILLS

- BIM: Revit, ACC, IDD
 - Drafting: AutoCAD
 - Coordination: Navisworks, Dalux, Revizto
 - Visualization: Twinmotion, Enscape, Blender, Bambulab 3D Printer
 - Analysis: Swept path Analysis with Vehicle Tracking
 - Development: Basic Revit Plugin
-

CERTIFICATIONS

- BCSS (WSH)
- BIM / Revit Certifications
- MEP Coordination Training
